Panasonic Ice Cream Maker Limited Warranty

This warranty applies to this product only. For the warranty on other component parts, please refer to the warranty that accompanies them.

Limited Warranty Coverage

This warranty covers defects in materials and workmanship for a period of one (1) year from the date of purchase. The warranty is applicable to the original purchaser and any successor in title as long as the product is used in the United States, Puerto Rico, or the U.S. Virgin Islands. Panasonic Consumer Electronics Company or Panasonic Sales Company (collectively referred to as "the warrantor") will, for the length of the period indicated on the chart below, which starts with the date of purchase, repair or replace, at its option, any defective part of the product. The decision to repair or replace the product will be made by the warrantor.

Limited Warranty Limits And Exclusions

This warranty does not cover damage caused by accident, misuse, abuse, negligence, alteration, failure to follow operating instructions, or unauthorized repairs. The warrantor is not liable for any consequential or incidental damages for breach of any express or implied warranty on this product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

WARRANTY.

THIS WARRANTY IS THE ONLY EXPRESS WARRANTY WHICH APPLIES TO THIS PRODUCT. THE WARRANTOR DISCLAIMS ALL OTHER EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE IMPLIED WARRANTY OF MERCHANTABILITY IS LIMITED TO ONE YEAR TO THE DEGREE THAT APPLIES TO PERSONAL PROPERTY. SOME STATES DO NOT ALLOW IMPEDED LIMITATION ON THE DURATION OF AN IMPLIED WARRANTY, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

To obtain warranty service, please contact the warrantor. Please have the product available when you call. You must pay for all service call charges incurred by the warrantor unless such service calls are made by an authorized service representative at no charge.

Panasonic Consumer Electronics Company, One Panasonic Way, Secaucus, New Jersey 07094

Panasonic Sales Company, P.O. Box 2208, Fort Lauderdale, Florida 33301

For assistance in Puerto Rico call Panasonic Sales Company (787)-750-4300 or fax (787)-768-2910.

PLEASE RETAIN THE INSTRUCTIONS FOR FUTURE REFERENCE.
Release Button (on both sides)

Parts Identification and Function

Please read before operating

The instructions must be followed before operating the ice cream maker. Please refer to the separate-volume recipes for clean preparation, wash all parts except for the body. If swallowed, contact a physician at once.

Practical Hints

The important items to check before making ice cream are as follows:

- Inspect it at regular intervals.
- Avoid storage in direct sunlight, near children.
- Close supervision is necessary for children.
- Keep batteries out of reach of children.
- Do not disassemble the battery.
- Insulate both terminals with cellophane and keep away from other food.
- Refractories (Appropriate temperature is 0°F (-18°C) immediately before making your batch of ice cream. If storage is not possible, wrap the mixed ingredients with cellophane and keep away from open flame.

The appropriate volume for each batch is as follows:

1 cup to 3 cups (240 ml to 720 ml) for each batch. This volume is based on the capacity of the Ice Cream Maker, and is not suitable for more than 3 cups.

Do not disassemble or attempt to repair this product. Do not mix a new battery with an old one or use other battery types. Never put batteries in mouth.

Always replace with 2 new fresh batteries with the same type. The batteries may vary in size or capacity depending on the program.

Do not rotate the rotating blade while it is rotating. Do not rotate the rotating blade by holding the rotating shaft and placing the Ice Cream Maker in the freezer. Never rotate the rotating blade by placing the ice cream on the rotating blade while the ice cream maker is in operation. The container is intended for use with cellophane and not for storage. Please refer to P.10 "Troubleshooting" and fix. Please refer to P.8 "Maintenance."
## IMPORTANT SAFETY INSTRUCTIONS

### DANGERS

- Do not use the product near water, such as near a bathtub, washbowl, sink, or other similar location, and in damp or wet locations.
- Do not unplug this product by pulling on the power cord. Always grip the plug firmly and pull straight out from the receptacle.

### CAUTIONS

- Do not allow children to play with this product. This product is not a toy.
- This product is intended for household use only.
- Do not use this product when the container or the rotating shaft is outside the container and the rotating shaft.

### TIPS

- Do not disassemble, modify, or repair this product yourself.
- Do not use the product in the rain or in humid locations.
- Do not operate this product if the power cord or plug is damaged.

## PLEASE READ BEFORE OPERATING

- Before using the product, read the instructions in this manual thoroughly.
- This product is exclusively for the BH-941P model.

## PARTS IDENTIFICATION AND FUNCTION

- **Rotating Blade**: The rotating blade is used to mix the ingredients in the container.
- **Container**: The container is used to hold the ingredients.
- **Cover**: The cover is used to keep the ingredients in the container.
- **Practical Hints**: The practical hints are used to mix the ingredients in the container.

## HOW TO USE

1. **Remove the battery cover**.
2. **Insert the two CR123A lithium batteries as indicated inside battery compartment**.
3. **Make sure that their polarity matches**.
4. **Combining the ingredients with hand**.
5. **Putting the ingredients into the container**.
6. **Pressing the switch and placing the Ice Cream Maker in the freezer**.
7. **Fixing the body to the container side lock**.
8. **Servicing the ice cream**.

### Indication Lamp

- **Quick flash** (light is out after 5 seconds): Indicates abnormal rotation of the rotating blade.
- **Weak batteries**: Indicates low battery power.
- **Cooling before finishing**: Indicates that the ice cream is being cooled before finishing.
- **Operating normally**: Indicates that the ice cream is being mixed normally.

### Recipes

- **For clean preparation, wash all parts except for the body**.
- **The important items to check before making ice cream are as follows**:
  - **Appropriate preparation can avoid a failure. Be sure to check before using**.
  - **The important items to check before making ice cream are as follows**:
    - **Be sure your refrigerator's freezer can be adjusted to 0°F (-18°C)**.
    - **Keep the Ice Cream Maker away from other food**.
    - **Battery Cover**: The battery cover is used to store the batteries.
    - **Switch**: The switch is used to control the operation of the product.
    - **Container**: The container is used to hold the ingredients.
    - **Spoon**: The spoon is used to remove the ice cream from the container.

### Measuring Scale

- **2 cups ingredients are standard capacity**.
- **1 cup to 3 cups for each batch**.
- **Approx. 5 hours for 3 cups (720 ml) ingredients**.
- **Temperature range limits for your batch of ice cream**.

### Practical Hints

- **Puree solid food including fruits with a juicer**.
- **Calculate the volume by estimating one serving at 1/2 cup (120 ml)**.
- **Mixed ingredients stored for a long time should be discarded or their composition should be adjusted**.
- **If you try to make more or less, you may not be successful**.

### Indication Lamp

- **Indicates abnormal rotation of the rotating blade**.
- **Indicates normal operation and the ready status for making the ice cream**.
- **Indicates that the indicator lamp is lit.**
- **Please refer to the separate-volume recipes**.
- **To remove the rotating shaft, refer to P.8 "Maintenance."

### Appendix

- **Include the parts identification and function**.
- **The container is intended exclusively for the BH-941P model**.
- **Do not use another container as the container and the rotating shaft**.
- **Do not rotate the rotating blade by hand with force. It may cause damage to the blade and the container**.
- **Do not use another container as the container and the rotating shaft**.
- **Avoid storage in direct sunlight, heat, above 212°F (100°C) or below 0°F (-18°C)**.
- **For clean preparation, wash all parts except for the body**.
- **The important items to check before making ice cream are as follows**:
  - **Appropriate preparation can avoid a failure. Be sure to check before using**.
  - **Be sure your refrigerator's freezer can be adjusted to 0°F (-18°C)**.
  - **Keep the Ice Cream Maker away from other food**.
  - **Battery Cover**: The battery cover is used to store the batteries.
  - **Switch**: The switch is used to control the operation of the product.
  - **Container**: The container is used to hold the ingredients.
  - **Spoon**: The spoon is used to remove the ice cream from the container.

### Measuring Scale

- **2 cups ingredients are standard capacity**.
- **1 cup to 3 cups for each batch**.
- **Approx. 5 hours for 3 cups (720 ml) ingredients**.
- **Temperature range limits for your batch of ice cream**.

### Practical Hints

- **Puree solid food including fruits with a juicer**.
- **Calculate the volume by estimating one serving at 1/2 cup (120 ml)**.
- **Mixed ingredients stored for a long time should be discarded or their composition should be adjusted**.
- **If you try to make more or less, you may not be successful**.

### Indication Lamp

- **Indicates abnormal rotation of the rotating blade**.
- **Indicates normal operation and the ready status for making the ice cream**.
- **Indicates that the indicator lamp is lit.**
- **Please refer to the separate-volume recipes**.
- **To remove the rotating shaft, refer to P.8 "Maintenance."

### Appendix

- **Include the parts identification and function**.
- **The container is intended exclusively for the BH-941P model**.
- **Do not use another container as the container and the rotating shaft**.
- **Do not rotate the rotating blade by hand with force. It may cause damage to the blade and the container**.
- **Avoid storage in direct sunlight, heat, above 212°F (100°C) or below 0°F (-18°C)**.
- **For clean preparation, wash all parts except for the body**.
- **The important items to check before making ice cream are as follows**:
  - **Appropriate preparation can avoid a failure. Be sure to check before using**.
  - **Be sure your refrigerator's freezer can be adjusted to 0°F (-18°C)**.

IMPORTANT SAFETY INSTRUCTIONS

WARNING: To prevent fire or electrical shock hazard,
make sure the product is properly grounded.

CAUTION: To prevent risk of fire or burns,
make sure the product is properly handled.

REMEMBER TO DISCONNECT THE MAIN POWER CORD FROM THE WALL OUTLET WHEN THE ICE CREAM MAKER IS NOT IN USE.

HOW TO USE

1. Open the side locks on both sides and take the cover off.
2. Remove the battery cover.
3. Align the position mark on the cover with the position mark on the container.
4. Line up the position mark on the cover with the placement guide on the container.
5. Fix the body to the container securely.
6. Press the switch to start the ice cream making process.
7. When the rotating blade is buried under ice cream, take the blade out after scooping.
8. Serve the ice cream.

PLEASE READ BEFORE OPERATING

The ice cream maker should be used before making ice cream. Please refer to the separate-volume recipes.

PARTS IDENTIFICATION AND FUNCTION

POSSESSION OF ICE CREAM MAKER

Ice Cream Maker is not intended for use by children 3 years and under. Do not disassemble, repair or attempt to modify the Ice Cream Maker. The apparatus may be dangerous. Do not recharge, disassemble, repair or attempt to modify the Ice Cream Maker.

GAS OR ELECTRIC BURNER

Do not use the product near gas or electric burner, or in a wet hands.

WATER OR ELECTRIC SHOCK

Do not use the product with wet hands.

ICE CREAM ALARM

Do not make ice cream for a long time. The alarm lamp will go off when the ice cream has finished making.

INDICATION LAMP IDENTIFICATION

- Goes off
- Slow flash
- Quick flash
- Continuous

APPROPRIATE PREPARATION

Appropriate preparation can avoid a failure. Be sure to check before using. The important items to check before making ice cream are as follows:

1. Adjust the temperature of the freezer to 0 °F (-18 °C).
2. Arrange the container and the rotating shaft.
3. Wipe off any moisture on the surface of the container.

APPROPRIATE VOLUME

The appropriate volume for each batch is

- 1 cup to 3 cups (240 ml to 720 ml)

SERVING SIZE

The serving size of ice cream is

- 1/2 cup (120 ml)

STORAGE

Leftover ice cream should be transferred to another container.

FUNCTION

- The indicator lamp indicates an "abnormal" condition by flashing quickly for 5 seconds when the batteries are weak.

PROCEDURE

1. Open the side locks on both sides and take the cover off.
2. Remove the battery cover.
3. Align the position mark on the cover with the position mark on the container.
4. Line up the position mark on the cover with the placement guide on the container.
5. Fix the body to the container securely.
6. Press the switch to start the ice cream making process.
7. When the rotating blade is buried under ice cream, take the blade out after scooping.
8. Serve the ice cream.

TROUBLESHOOTING

- Please refer to P.10 "Troubleshooting" and fix.

UNIT OF MEASUREMENT

- 1 cup = 250 ml
- 1 pint = 470 ml
- 1 quart = 946 ml

NEAR CHILDREN

Keep batteries out of reach of children.

SAFETY

- Do not recharge, disassemble, repair or attempt to modify the Ice Cream Maker.
- Do not allow children or pets to handle the Ice Cream Maker.
- Do not allow children or pets to handle the Ice Cream Maker.
- Do not allow children or pets to handle the Ice Cream Maker.

MAKING ICE CREAM

1. Open the side locks on both sides and take the cover off.
2. Remove the battery cover.
3. Align the position mark on the cover with the position mark on the container.
4. Line up the position mark on the cover with the placement guide on the container.
5. Fix the body to the container securely.
6. Press the switch to start the ice cream making process.
7. When the rotating blade is buried under ice cream, take the blade out after scooping.
8. Serve the ice cream.
Do not store too much food
Put the ingredients into the container.

**PARTS IDENTIFICATION AND FUNCTION**

Open the side locks on both sides and take the cover off.

6 Combine the ingredients for the ice cream including the following.

**CAUTION**

To avoid risk of fire and burns, follow these instructions for batteries:

- **WARNING**
  - In order to prevent the user of this product from injury and prevent damage to the product, follow the safety precautions for batteries.
  - Improper battery installation may cause the batteries to leak, overheat, or explode.
  - Follow the instructions for replacing batteries to ensure the safety of the product.
  - Do not mix new and old batteries.
  - Do not mix different types of batteries.
  - Do not mix ordinary batteries with batteries designed for ice cream making.
  - If the batteries are not inserted properly, it will not work.

**CAUTION**

**Practical Hints**

Appropriate preparation can avoid a failure. Be sure to check before using.

3. **Refrigerators**

- Be sure your refrigerator's freezer can be adjusted to 0 F (-18 C). If the refrigerator's maximum freezing temperature is above 0 F (-18 C), the ice cream may not be made from the refrigerator. You must also be sure that the refrigerator's freezer can be equipped with an automatic defroster.
MAINTENANCE

Do not use substances such as polishing powder, benzine, or thinner.

Disassemble each part in order from A to E before cleaning.

Dish detergent may be used. Can easily get scratched because it is made of stainless steel and all parts dry after washing them.

Temperature
-14°F (-20°C)
